Approximate route to wetland

Instructions for Accessing AV-20

Please see the attached map. All WHEP participants (including County Staff and consultants) must contact the Jim Zinck, Valleywood Golf Course Manager, at 952-935-2320 prior to accessing the wetland to determine where they will park, time they are allowed on site, if a golf cart will be made available, best access route, and other logistical details. This is for volunteer safety and to reduce interference with play. Please note, the northeast section of the wetland as indicated on the map should be avoided. This area is adjacent to a fairway, and the risk of being hit by a golf ball is high.
