|--|---------------|---|-------------------|
|  | Parcel Lines  |  | Stormwater inlet  |
|  | City Property |  | Stormwater outlet |

Directions to "JP-6" City Hall Pond: From Pilot Knob Rd, go east on Wescott, then south on Denmark. The paved path toward the pond will be at the bottom of the hill on your right. If you reach Deerwood Dr then you've gone too far. I will make sure you have permission to drive onto the paved cement path, but if anyone hassles you about it, have them call me: Jessie Koehle, Water Resources Dept, City of Eagan. Cell: 651-485-2235. Explain that you're helping do research on the pond, and that the road is too far to walk in waders!
