

# E-41 O'Leary Lake / BLP-4 (WHEP 2017 reference site)

## LEGEND

	Parcel Lines		Stormwater inlet
	City Property		Stormwater outlet
	Recommended approx sample location		

Directions to O'Leary Park: This park is located off of Lexington Ave just south of Yankee Doodle Rd. The park entrance is on the west side of Lexington and there is a small parking area after you drive in. There are public walking paths so you can choose your lake sampling point pretty easily. I recommend the red "X" on the map but see what it looks like when you get out there, up to you.
